

Meet Talos

Talos is a title research and examination solution designed to give title searchers, examiners, and title attorneys hands-on AI, so human intelligence and judgment are preserved and leveraged, not replaced.

Key Features

- Assisted search with source grounding
- Chain-of-title / instrument timeline support
- Ask-questions-of-the-file Q&A
- Citation-ready notes and snippets
- Configurable workflows and templates

Save Time. Scale for less. Reduce errors.

- Reduce research and triage time
- Faster first-pass searches
- Scale volume without adding headcount
- Improve and standardize quality across teams

Purpose-built for Title Research and Exam

- Inputs: PDFs, recorded documents, internal docs
- Outputs: summaries, timelines, draft language, citations ready for Commitment Letter

Seamless Integration into Your Workflows

- Works alongside title production software
- Export/share/upload formats that work inside workflow software programs
- Audit trails and logging

Title Research and Exam Workflows/Use Case

- Search and summarize parcel instruments
- Build preliminary chains or timelines
- Identify gaps and risks
- Rapidly assemble Commitment Letter from existing exam content

Pricing & Packages

- Pay for what you use no minimums or monthlies.
- \$.25 per page uploaded during searching
- \$3 per instrument used during exam
- Enterprise pricing is available

Data & Security

Your data, your choice. Because Talos gives you the power to control how and when you use AI, you decide which data can be shared outside of Talos. You maintain full oversight with AI operating as an extension of your team. [FAQs](#) and [Terms and Conditions](#) available online.
